

SLOT BASES

Our custom metal slot bases are manufactured at our state-of-the-art plant in Las Vegas, NV and feature steel or aluminum construction. They can be punched for single or multiple games, with pre-punched sides for end caps and mounting holes. The interlocking corner seams and continuous welded corners provide a safe, durable product with unmatched fit and finish. We can manufacture to any dimensions, as all

orders are custom tailored to our customers' particular needs. All products receive our beautiful, durable powder coated finish, and arrive on site with a one year warranty. We offer free installation of VSR maximum security locks on all of our custom sheet metal slot bases.
